

fiberon® Concordia™

Composite decking for rainscreen applications. Fiberon® Concordia square-edge deck boards are suitable for alternate uses, including vertical or horizontal cladding applications. Unlike traditional exterior cladding options, Fiberon cladding is constructed from low-maintenance, high-performance material that resists fading, cracking, peeling, mold development and mildew stains.

- Thick, solid profiles feature embossed grain patterns.
- Two distinct finishes offer subtle or dramatic multi-tonal streaking.
- Boards work in vertical or horizontal applications.
- Easy to cut, easy to install (no special tools or trade-specific labor needed).
- Contains 94% recycled content.
- Suitable for soffits, screen facades and similar applications.
- Mix and match 6-, 8- or 12-in. board widths for a unique look.
