rdi® RAILING

BY Barrette OUTDOOR LIVING®

ELEVATION™ RAIL

Available in pre-assembled kits that can install 38% faster than the competition* — and easy to shop with fewer SKUs — Elevation Rail requires no special tools or fasteners. Offering a modern, industrial design and a continuous top rail, this horizontal cable railing offers unobstructed views. Elevation Rail features adjustable panels that span up to 6' wide and the OneTen™ built-in centralized tensioning system.

FEATURES & BENEFITS

- Installs 38% faster than the competition*
- Pre-assembled kits with pre-installed brackets and pre-strung, continuous 316 stainless steel cables
- Modular panels span up to 6' wide and easily adjust to fit smaller openings
- Cable panel drops into installed posts and is secured into place with top rail
- Aluminum rails and posts feature AAMA 2604 powder coating
- Transferable Limited Lifetime Warranty on aluminum rails and posts. Limited Warranty on cable fittings.

*Based on a 12' x 18' deck with 8 posts and 7 panels (Elevation installed 49 minutes faster than competitive cable railing install of 129 minutes).

Matte Black

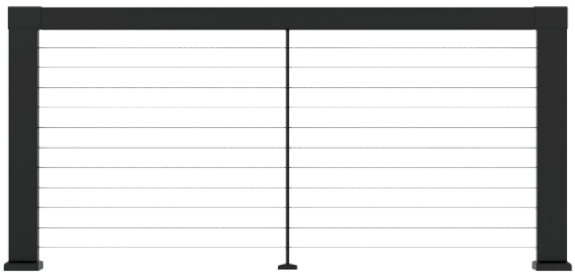
ONETEN™

The OneTen built-in tensioning control system eliminates the need to tension each cable individually and decreases the need for seasonal adjustments.

SOLARGUARD®

SolarGuard is a material composition that provides fade resistance* so that your outdoor living products will look good for years to come.

*Does not apply to white vinyl products.



6' Level Panel

HOW IT WORKS

1 INSTALL YOUR POSTS

Posts are available as line, corner and end. Posts are pre-routed to accept cable infill panels.

2 INSTALL YOUR PANEL

Cable panels come with pre-strung, continuous stainless steel cables that span up to 6' wide for level application and 5' wide for stair and pre-attached brackets.

3 CENTRALIZED TENSIONING SYSTEM

Thread cable through OneTen tensioning system, and hand-pull cable taut.

4 TENSION CABLE PANEL

Using a socket, tighten both sides of the OneTen system to tension the cable panel. Attach the top rail to finish installation.

RAILING

AVALON ALUMINUM RAILING®

PRODUCT INFORMATION

Rust-resistant Avalon Aluminum Railing combines form, function and versatility — providing style, safety and security. The pre-assembled rail panels feature ProLock® locking strips that are designed to hold balusters securely in place. Avalon Aluminum Railing offers the ultimate in customization with three top rail options and four rail infill styles, including traditional square balusters, glass slats, cable and Decorative Screen Panels.

FEATURES & BENEFITS

- Premium powder coating on aluminum framing meets and exceeds AAMA 2604 specifications
- Advanced weather testing, including 10,000 hours of salt spray testing
- Mix and match — perfect complement to Transform® composite railing
- Cable and glass slat infill options provide unobstructed views
- Decorative Screen Panel infill option offers increased customization with multiple designs and colors
- Adapter available to convert railing from 36" to 42" for commercial applications
- Transferable Limited Lifetime Warranty

Matte Black | Matte Bronze | White

PROLOCK®

The ProLock locking strip secures railings by connecting them from the inside out, making a clean, seamless finish for your outdoor living space.

SOLARGUARD®

SolarGuard is a material composition that provides fade resistance* so that your outdoor living products will look good for years to come.

*Does not apply to white vinyl products.
