Canvas Series®

BEAUTY OF WOOD. DURABILITY OF PVC.

COLOR PALETTE

Bringing luxury to PVC, The Canvas Series by VERSATEX delivers the rich look of premium wood with the maintenance-free convenience and durability the industry has grown to love. Exterior grade, wood-tone laminates are bonded to our WP4, Stealth Beadboard, 4" Crown, Bed Mould and TrimBoard profiles, eliminating the need for periodic, labor intensive re-staining, while providing the moisture and insect resistance that is synonymous with VERSATEX cellular PVC.

Offered in a wide variety of textured, low-gloss finishes, The Canvas Series is the solution to any project's porch ceiling, soffit, feature wall, or any other exterior/interior application you can think of.

BEAUTY OF WOOD. DURABILITY OF PVC.

<i>Profile</i>	<i>Actual Size</i>	<i>10'</i>	<i>16'</i>	<i>18'</i>
WP4	3/4" x 5 1/2"			•
Stealth Bead	1/2" x 6"			•
4" Crown	9/16" x 3 5/8"		•	
Bed Mould	9/16" x 3 5/4"		•	
TRIMBOARDS	1" x 8" & 1" x 12"			•
VERSAWRAP	6" x 6"	•		

- Color-matched touch-up kit available for purchase
- Visit versatex.com for handling & installation guides
- Wraps only available in three colors (Natural Amber, Turner Oak, & Kitami)

Walnut

Copper

Walnut

Driftwood

Turner Oak

Turner Oak

Copper

NATURAL AMBER

Warm and light with slight contrast and attractive grain.

"The Canvas Series allows us to give our custom-built homes a unique look. The durability and simple, clean installation sold me."

– Bob Sharpe

Sharpe Construction, Surf City, NJ

DRIFTWOOD

A washed-out tan with deep, textured grain.

TURNER OAK

Medium brown with deep grain patterns accompanied by a soft luster.

"I love the versatility and ease of use...
Most PVC 'wood products' look fake,
and VERSATEX's Canvas Series
does not. It's amazing."

- Dan Harriger

Harriger Construction, Empire, MI

COPPER

A saturated, medium brown offering moderate texture and contrast.

WALNUT

A rich, chocolate brown with unique grain variations.

NATURAL MACORE

Reddish brown with a contrasting straight grain and a soft, natural luster.

CHAMPAGNE OAK

a warm, inviting hue that combines rich oak tones with a subtle golden undertone.

“Whether it’s for new home construction or a renovation, the Canvas Series can transform a dull space into something that looks like a million bucks.”

– Ken Keirns

JFS Construction, Tampa FL

WEATHERED GREY

A reclaimed look with good contrast and varied texture.

KITAMI

Dark, scorched finish with stunning richness and natural luster.

Canvas Series **TRIMBOARDS**

Canvas Series® TRIMBOARDS
1" x 8" x 18' and 1" x 12" x 18'
Available in all 9 colors

Due to the overwhelming demand of our builders and contractors, we are now offering Canvas Series TRIMBOARDS. Great for beam wraps, accent walls or other areas where you are looking for a beautiful wood look with zero maintenance. Boards can be cut or ripped down to custom size and edges can be finished with Canvas Series markers covering the white.

Canvas Series[®] **VERSAWRAP[™]**

Perfect for wrapping treated wood posts

Canvas Series[®] VERSAWRAP

6" x 6" x 10' 4-piece wrap

Wraps only available in three colors
(Natural Amber, Turner Oak, & Kitami)

Accessories Available:

(In all 3 colors)

- **10" 4-Piece Accent Wrap**
- **Base Moulding Kits**
(cut to size with Hofmann Dovetail connectors)

Natural Amber

Turner Oak

FINISHING GUIDE

VERSATEX also suggests staggering seams during installation. This keeps application strong; seams are traditionally weaker points, but staggering them adds stability. This also keeps your eye seeing the Canvas grain instead of focusing on a straight line of seams. To minimize pattern repeatability install the boards by rows, not by columns.

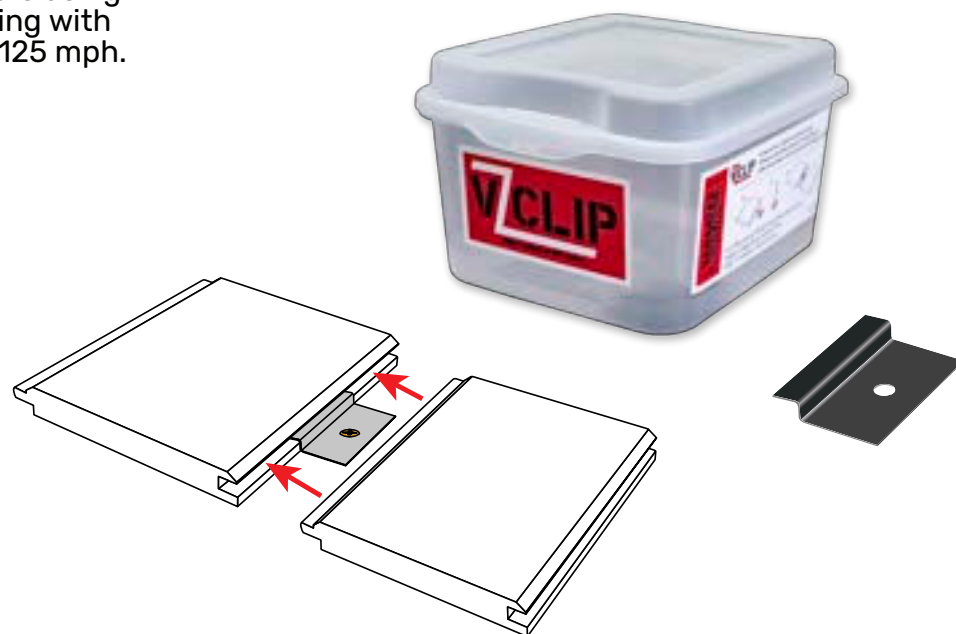

Canvas Series laminates do not fold over the cut ends of the product. In order to cover any white seams that may show once installation/contraction is complete, VERSATEX offers color-matched end coatings in dauber form to help cover up any and all white seams. Coatings are available for all colors. VERSATEX recommends applying end coatings before installation.

V CLIP

VERSATEX's VZClip fastener speeds up and simplifies the installation of $\frac{3}{4}$ " trim profiles, which includes the Canvas Series' WP4 profile. VZClips slide over the nailing flange and secure to wall studs/ceiling joists using #8 galvanized or steel screws. Test-site data shows that installing with VZClips keep VERSATEX firmly in place even at wind loads over 125 mph.

For all cleaning and installation guidelines, including using Canvas Series as siding, please visit versatex.com

CONTINUOUS VALUE

When comparing Canvas Series products to premium-grade lumber that requires hefty prices to re-stain and seal every 3-4 years, the choice is clear. No re-staining or upkeep is required to maintain the Canvas Series' stunning grains. Enjoy durable, maintenance-free, long-lasting value for years to come.

WARRANTY

At VERSATEX, products are created from cellular PVC in a state-of-the-art manufacturing facility with the highest level of quality and feature a fully-transferable limited lifetime warranty. Regarding Canvas Series Products, VERSATEX warrants to the Consumer/Purchaser that the film laminate will not discolor beyond the manufacturer's tolerances (\leq greyscale 3 - ISO 105-A02) for 12 years from the date of original purchase. Furthermore, VERSATEX warrants to the Consumer/Purchaser that the application of the film onto the underlying PVC substrate be free from manufacturing defects for 12 years from the date of original purchase.

The laminate achieves excellent values in the reduction of heat build-up and weathering. Ideally suited for all-weather environments, but fully suited for hot climate zones.
