Timberstrand 1.3e LSL Wall Framing

****Edited zone framing note****

2x4 Precuts 92-5/8", 104-5/8", 116-5/8"

2x6 Precuts 92-5/8", 104-5/8", 116-5/8"

2x4 8' - 20' (2' increments) & 32'

2x6 8' - 20' (2' increments) & 32'

****Edited zone framing note****

TimberStrand LSL studs and columns provide excellent value when used selectively in the framing zones of a house, where straight studs translate into flush walls. These zones include kitchen cabinet walls, tiled bath walls, tall walls, and other prominent areas, such as staircases and hallways, for other areas of the home, maximize your budget by using.
